COVID-19
CORONAVIRUS

SANITISATION SERVICES

EXPERT KNOWLEDGE / UNPARALLELED DELIVERY

REDS Group offers complete nationwide solutions for decontamination and sanitation of areas suspected of being infected by COVID-19 or for clients that require peace of mind.

With our combination of environmental expertise and hazardous material management, REDS is uniquely positioned to assist our clients in cleansing and maintaining their workplace environments to the utmost Human and Environmental Health standards.

Our teams are well versed in working within highly sensitive and secure sites, including critical power and utility facilities, and across all industry and public sectors. In addition, our teams have security clearance to work on the UK Defence Estates.

Contact us for more information on how our services can assist you and protect your employees, customers and the general public.

WHAT OUR CLIENTS SAY ABOUT US:

Everything which REDS have provided, not only the manpower but also the managerial work in the background, has been absolutely top class. I have the fortune to engage with many and various contractors, this is the first time REDS have worked in my area and frankly I have been impressed at every turn, opportunity and the proactive approach taken to expedite the clean-up and prevent further contamination of the ground.

I Cameron

DEFENCE SECTOR FM - EAST

Running one of the busiest fishing ports in the country will always raise environmental issues or jobs that need that specialist oversight. I must state how impressed I was with REDS Group, from the inception of the job right through to completion. Value for money, great team and most importantly, peace of mind.

R Parson

HARBOUR MASTER & CEO - SOUTH WEST

I really wish to thank REDS Group and their team for their brilliant work in investigating and remediating the oil spill in Sheffield Park. I was very impressed with the professional communication and response to the incident. The reports were detailed, focused and logical which made them really easy to digest. REDS Group responded very promptly to any questions I had, whether via email or telephone. I have been really impressed with REDS Group.

ENVIRONMENT AGENCY OFFICER - SOUTH EAST
