

LLOYD BURNARD

OWNER / MANAGING DIRECTOR

REDS GROUP
JUNE 2017 – PRESENT

PROFILE

Lloyd has worked within the fuel and oil response, environmental and decommissioning industry since 1996, his involvement and, later in his career, management of a varying degree of projects has allowed him to expand his knowledge and experience within all areas.

Lloyd has earned a name for himself with key clients as the 'go to' for rapid response project management for incident response and environmentally sensitive projects. His track record in delivering high profile and high-risk projects on time whilst exceeding client and third-party expectations is second to none.

GARETH McCORKILL

RESPONSE & ENVIRONMENTAL PROJECTS MANAGER

REDS GROUP
JANUARY 2019 – PRESENT

PROFILE

With over 15 years' experience in the Oil Spill Response industry operating in over 45 countries, Gareth has an unparalleled depth of expertise in the industry, having managed, co-ordinated or overseen numerous international major spill response projects.

Gareth's technical knowledge of oil spill equipment, response methodologies and the necessary interconnecting equipment required to 'make it work' in all environments (Land, Shoreline, Off-shore) is extensive.

With added marine experience of being a Navigational Office in the Royal Fleet Auxiliary

for 8 years, ex commercial fisherman and RYA power boat instructor and qualification in Shipboard Operations and Nautical Science; Gareth's experience and knowledge in seamanship and understanding of the innerworkings of a vessel's operation is comprehensive.

Strong inter-personal and managerial skills, accustomed to working with colleagues and clients in environments where pressure is the norm and diplomacy in dealing with difficult and sensitive situations is essential.

NIGEL FRIEND

ASSOCIATE DIRECTOR

REDS GROUP
OCTOBER 2017 - PRESENT

PROFILE

Nigel has an unrivalled depth of knowledge and expertise in the construction, demolition and petroleum industries. With over 35 years' experience, he has built a strong reputation for delivering complex, high value decommissioning projects for clients including the MOD, NHS, Local Authorities and HM Prison Service, and a number of major oil companies and large engineering consultancies.

Nigel specialises in planning and delivering decommissioning, tank maintenance and ground remediation projects ranging from filling station decommissions and multi-site tank maintenance contracts, to commercial tank farm cleaning and fuel tank inspections. He has an excellent track record in health and safety and is renowned for ensuring all projects are delivered with minimal impact on the environment.

SHANE STANLEY

SHEQ & PROJECTS MANAGER

REDS GROUP
JULY 2017 – PRESENT

PROFILE

Shane has established himself as a well-respected and experienced senior projects manager within petroleum industry since beginning as a plant operator on forecourt decommissioning projects in 2006.

Shane's core skills, knowledge and understanding of the petroleum industry, fuel storage regulations and safe working practices coupled with his attention to detail and organisation has enabled him to adapt his skills to major projects management and senior SHEQ roles. Where his ability to organise, price and manage every aspect of major projects with values in excess of £2million has been continually proven.

ANDREW MURCH

OPERATIONS MANAGER

REDS GROUP
JULY 2017 – PRESENT

PROFILE

Andrew has operated in various roles within the petroleum sector since 2000, all of which have required an in-depth awareness of health and safety regulations and safe-working practices coupled with exceptional organisation skills.

Andrew has managed high-risk projects throughout the UK and abroad for various blue chip companies and MOD contractors, enabling him to gain extensive experience in many areas surrounding fuel storage operations such as regulatory fuel and tank maintenance programmes, and demonstrate the importance of bespoke site management for high-risk tasks such as manned entry tank cleaning, inspections and decommissioning.
